

Come pay us a visit at the 2017 ISH

New DDC, control units, software project planning support, room automation and IT security, etc.

Dear Mr. / Mrs.,

The major trends of this year's ISH trade fair (March 14 - 18, 2017) lie in the following areas, etc.:

- Energy efficiency and comfort in buildings through intelligent building technology
- Digitalization and IT security in building automation

We would like to show you our DEOS approaches, products and services in an exclusive presentation at our trade fair booth, **hall 10.3 / booth A19**. We are cordially inviting you to our **daily DEOS Happy Hour**.

Take this opportunity to expand your business and get to know our DEOS solutions better.

DEOS trade fair highlights!

Our **highlighted topics** include innovations as well as further developments and are divided into the following subject areas:

▪ Solutions - for room automation and special industries

Industry solutions, e.g. for hotel room automation with SRU+MODBUS or KNX, control units, scene control, etc., with standard room solutions or free programming according to VDI 3813 and EN 15232.

▪ Solutions - for HVAC building installations

The new patented *OPENDynamics* room air control strategy for achieving energy savings of up to 70% while simultaneously enhancing comfort.

New software version of the energy management software *OPENenergy*, improved evaluation options / reporting and new dashboards.

▪ Solutions - for IT security and BA and DEOS Cloud Solutions

Up to 50% cost savings thanks to DEOS Cloud Services, secure branch networking or centralization of the BMS, new BMS operator models through BMS virtualization.

▪ DEOS user software - continuously improved

The new HTML5 based *OPENview* graphic operation (both browser and operating system neutral), new version of the DEOS BMS *OPENweb* with advanced features (improved graphic functions and advanced user guidance).

▪ DEOS hardware products - DDC and SRU

New cost-effective controller - *OPEN 600 EMS basic24* - for HVAC systems, can also be used for single room automation, new DEOS SRU with MODBUS for connecting cost-effective room control units.

▪ Control units - for rooms and switch cabinets

Cost-effective touch room control units with high-quality glass interface and background lighting based on MODBUS, touch control units for switch cabinet installation (from 15.6" to 21.5"), new tablet PCs for the switch cabinet and as a room control unit.

▪ DEOS project planning software - FUP XL and libraries

Reduction of time-consuming routine work by up to 90%, new and advanced DEOS project planning tools, new FUP XL 2.2, new macros and templates, *OPENproject* and SRU manager, etc. reduce your project planning costs.

▪ BACnet - new tools, libraries and more

New commissioning and maintenance tool: BACnet DataCenter, new BACnet compact controller, library expanded with BACnet macros.

▪ ... your personal live presentation at the DEOS trade fair booth

DEOS Happy Hour at our ISH trade fair booth - come by and celebrate with us!

2017 is a very special year for us - we are celebrating 50 years of innovations from Rheine: 50 years of intelligent building automation and 50 years of customer proximity and partnership.

We cordially invite you to our snack bar: **daily from 4 p.m.** (until the trade show closes) at our trade fair booth in hall 10.3 / booth A19.

We will be there for you personally throughout the five trade fair days. Our representatives from sales, technology, development, marketing and professional service (DEOS academy) will answer your questions and will be happy to take your comments.

Please don't hesitate to contact us to arrange your fixed trade fair visit in advance. This way, we can ensure that you can discuss your concerns and questions with our DEOS experts. Simply use our [contact form](#) and provide us with your desire visit date, time and your discussion topics.

We look forward to your visit!
