Your DEOS Team

**New film: DEOS AG introduces itself**

Find out about DEOS AG in a short video

You know us already and want to introduce DEOS AG to your end customers as well? For this, we have made a short, clear-cut video about DEOS AG. It shows a number of locations at the company, such as the DEOS academy training area, the Development Department, the Production Department, Quality Control, and much more in an authentic way. This lets you present an accurate picture of DEOS AG to your end customers in a short time.

**DEOS is committed to IT security**

Joined "Alliance for cyber security"

DEOS AG joins the "Alliance for cyber security" as one of the first manufacturers of building automation products. The merger of all major actors into an alliance for cyber security has the goal of raising the level of cyber security in Germany.

From the perspective of DEOS AG, the subject of IT security is playing an increasingly important role especially in the field of building

automation. For the last 5 years, DEOS has realised partner projects where the new solutions for IT security from DEOS AG are used. As a manufacturer with more than 50 years of experience in building automation (BA), besides the classic BA products such as building management system, energy management software or controllers, our offerings also include modern cloud solutions, IT project support and secure site networking for decentralized properties. The demand for this issue is growing and, consequently, also the necessity to face the latest IT challenges in this field.
