OPEN Controller and I/O modules rated 24VDC (19V to 30V), 1.75amp max with combination of one of module from each group, analog input 0-10V, 100kOhm to AGND, analog output, 0-10V 8mA each, digital input 24VDC, 5kOhm, digital output 24VDC, 80mA each, ambient 0~50 °C.

NOTE:

- The above models are certified as controller components with input and output signals which may be installed inside CSA certified/proved enclosure. The suitability and combination will subject to evaluation of CSA Group.
- The above controllers are supplied by a certified/approved class 2 energy limited power supply or circuit which is outside the scope this certification/evaluation.
- The above controllers are evaluated as general purpose energy management equipment, no safety functions is considered.
- The above controllers, I/O modules and accessories are sourcing from one power supply only.
