

C&A Head office, Germany

The new C&A Head office was realised between 2005 and 2006 with a total floor space of 31,400 m² in the vicinity of the international Duesseldorf airport and with a total capital investment amount of 75 million Euros.

The building management system was delivered by DEOS Gebäudeautomation. In an ongoing project since 2013 DEOS Gebäudeautomation has been delivering modern control technology for the current enlargement of the office building.
