

## DoubleDragon Plaza commercial property, Philippines

DoubleDragon Plaza offers modern office space for a large number of companies. A rental area of 280,000 m<sup>2</sup> was created. Starting with an 11-storey office complex with over 130,000 m<sup>2</sup> and four office towers, the surface area is now 4.75 hectares. By the time the large scale project is complete, the area will be expanded to around 33.4 hectares. During the planning phase, special attention was paid to the green building concept; hence the building complexes save the company's resources, ultimately saving money, and sustainably protect the environment.
