

## IKEA Furniture Stores, throughout Germany

Since the opening of the first IKEA furniture store in the near of Munich in October 1974, the furniture chain, founded in Sweden in 1943, has developed into a major player of the German furniture sector.

With the construction of the largest IKEA branch of Germany in Berlin-Lichtenberg IKEA Verwaltungs GmbH decided for the energy-efficient building automation of DEOS AG. Since 2010 several IKEA furniture stores throughout Germany were therefore equipped with DEOS technology. Thus, the head office in Hofheim-Wallau can monitor and control the systems of these branches from a distance through the building management system OPENweb.
