

Riga Castle, Latvia

Riga Castle was founded by the Livonian Order in 1330. Since the regained independence of Latvia it is served as the residence of the Latvian president.

Over a period of nearly 1.5 years the building systems of the 11,000 m² castle has been modernized and equipped with modern DEOS technology. The whole system is controlled and regulated by the user-friendly building management system OPENweb. The control units in the different rooms allow individual adjustments of the HVAC system.
