

SANA Hotel, Germany

In December 2010 the four star SANA Berlin Hotel opened its doors in the western city centre of Berlin with 208 rooms including 13 suites and 42 apartments. Energy management stations, room control units and a building management system provided by DEOS AG guarantee an ongoing optimization of energy consumption.

Furthermore, the whole system is connected to the Fidelio hotel booking system. Current information on the room's occupancy contribute to achieve a high level of energy efficiency.
