

STCI SOCIÉTÉ TABBARA
POUR LE COMMERCE ET L'INDUSTRIE S.A.L

STCI food wholesalers, Lebanon

STCI is one of the leading food wholesalers in Lebanon, specialising in dairy products. The company's products can be found in all Lebanese market segments through a diverse network of distribution channels. The products are also exported to countries in the Middle East, e.g. the United Arab Emirates, Kuwait and Saudi Arabia.

In the food industry, in particular, there are strict requirements regarding climatic conditions. To meet these challenges, the client opted for technology from DEOS to control and monitor the special cold rooms, generators and the refrigeration plant. Not only does this technology monitor all eight cold rooms for temperature, humidity and door status, it also measures the electrical energy while keeping the technicians informed about the current status by way of e-mail notifications. OPEN 600 EMS and OPEN IO modules were used for this purpose and supplemented with OPENview software.
